Prevalence of obstructive sleep apnea syndrome in Japanese elementary school children aged 6-9 years  
 Authors: Yoshida M, et al. *PLoS One* 2015;10(12):e0142801. doi:10.1371/journal.pone.0142801

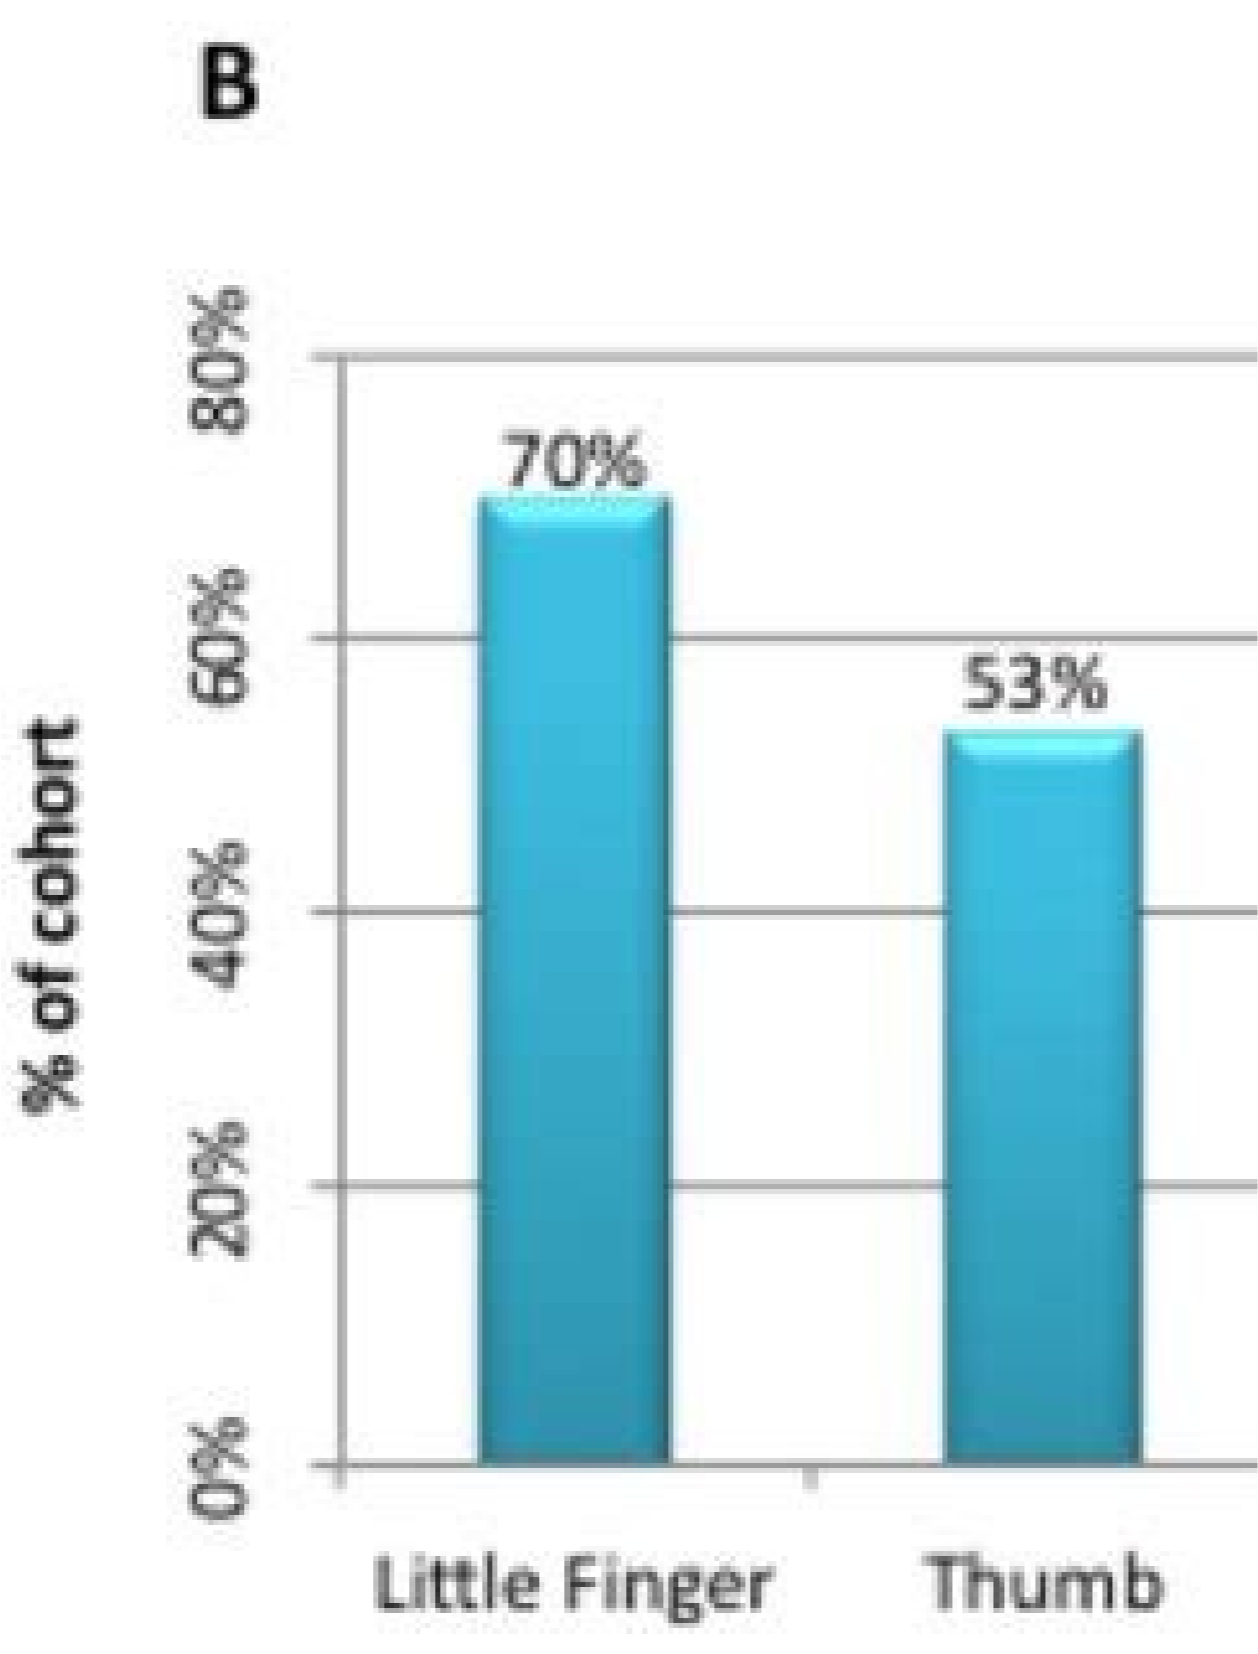

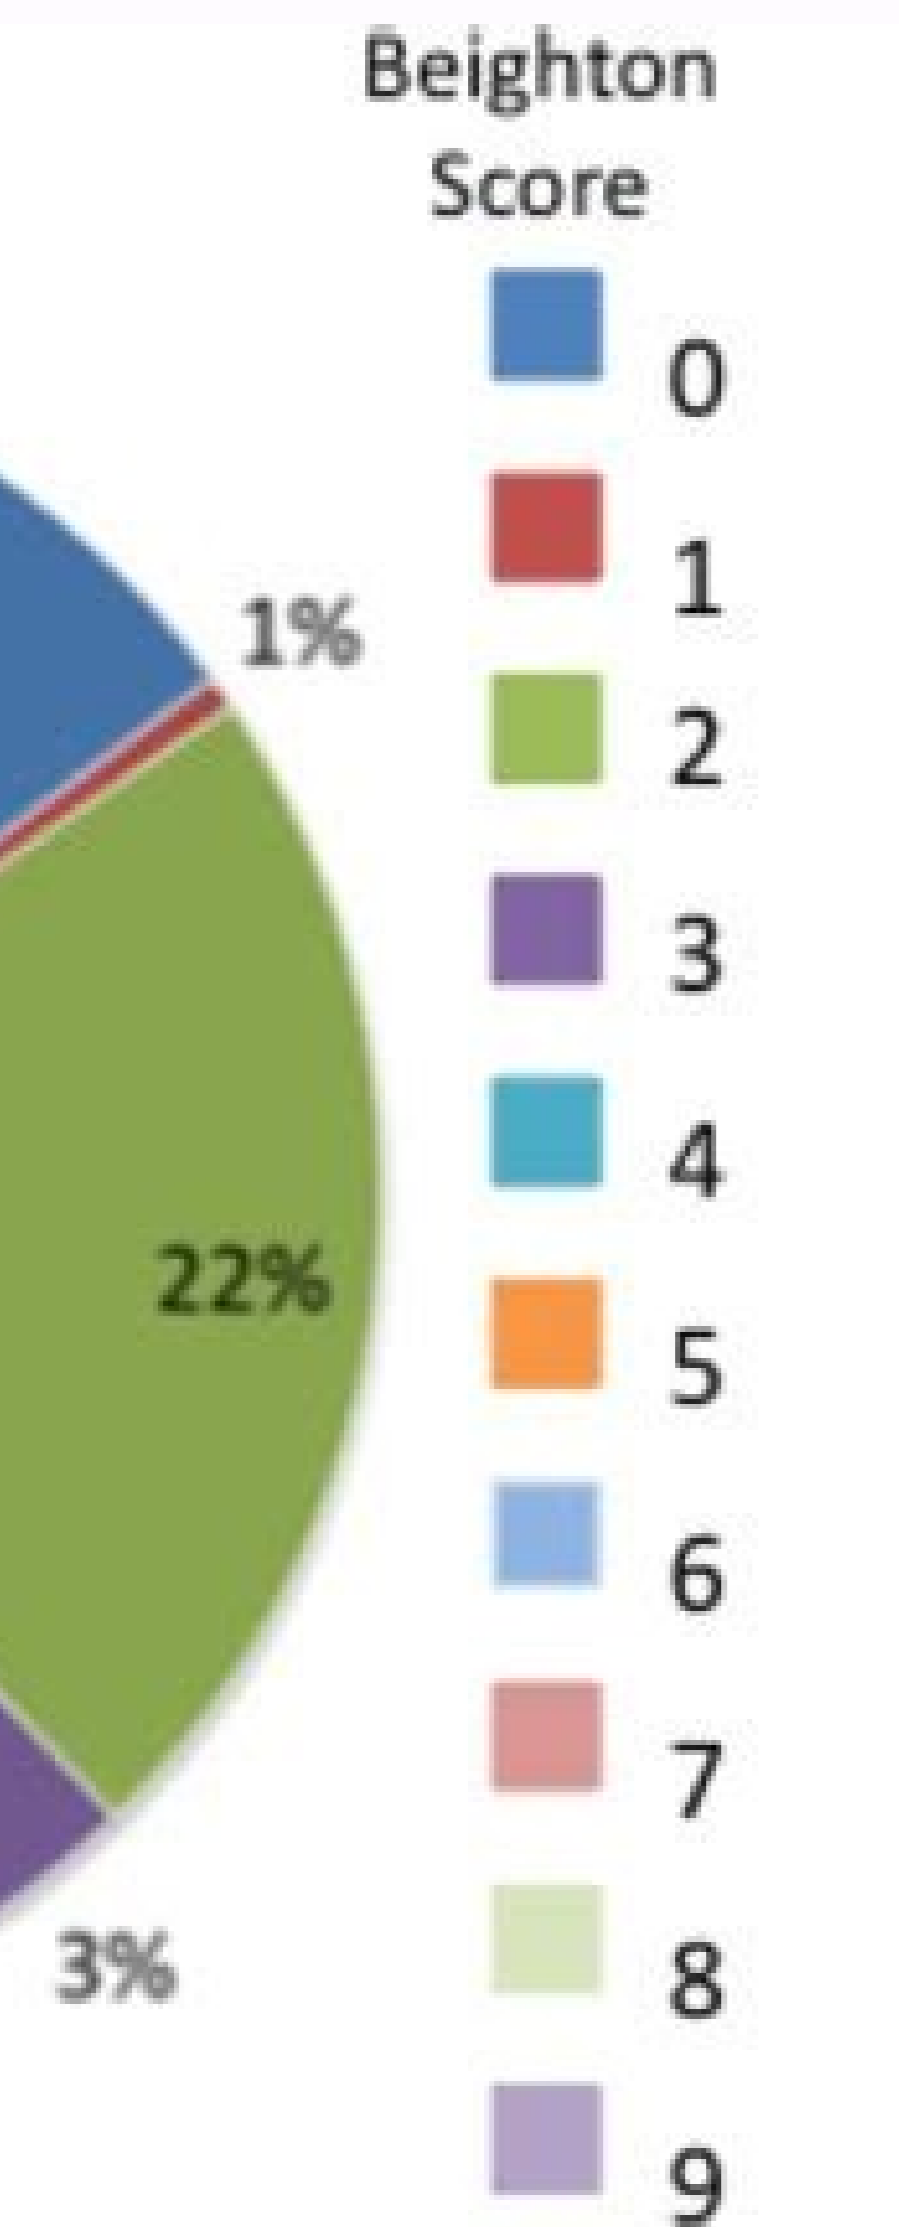

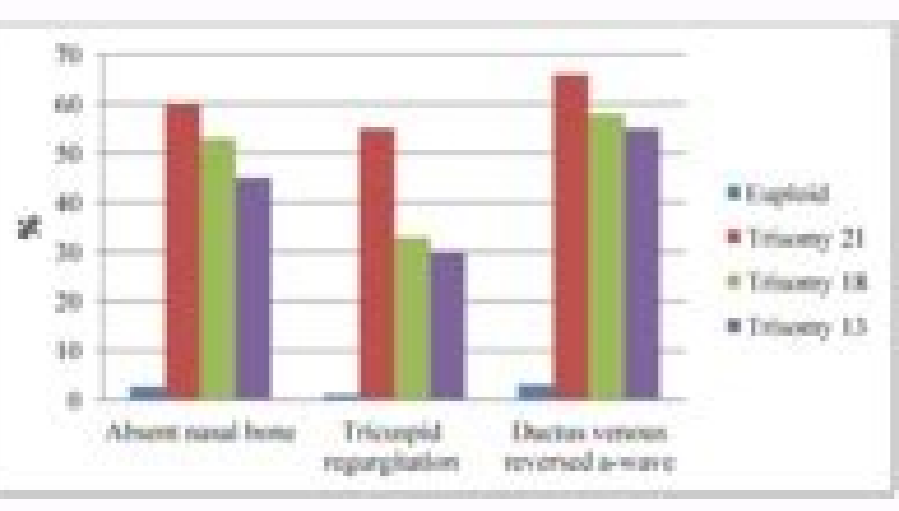

(Published Electronically Ahead of Print on March 1, 2016)

# PRACTICE BULLETIN

CLINICAL MANAGEMENT GUIDELINES FOR OBSTETRICIAN-GYNECOLOGISTS

NUMBER 163, MAY 2016

(Replaces Practice Bulletin Number 77, January 2007)  
 (See also Practice Bulletin Number 162, Prenatal Diagnostic Testing for Genetic Disorders)

The table contains various clinical recommendations for Down syndrome monitoring, including sections for 'Recommendations for Prenatal/Pediatric Health Care' and 'Recommendations for Postnatal Health Care'. It lists specific actions and frequencies for different age groups and clinical scenarios.

Newborn guidance available online (2018) Hearing tests (every 2 years). Health education, abuse-prevention and sexuality. The situation from June 2017 onwards is as follows: Vision Full Evidence Based on Review (2012) Available revised online hearing as best practice guidance for hearing management in Syndrome Syndrome (June 2017) Available heart-evidence based review (2007) Cervical Spine Online Disorders Complete Evidence-based review (2012) available online. Referral Psych (as needed). Breast examination (yearly). Echocardiogram-echo (as indicated). If it is not possible to perform, screen Pelvic (every 2-3 years). Routine adult care. Revision based on full growth (2012) available online. If not sexually active, a bimanual examination singlefinger with examination of finger-directed cytology. Adult Guidelines Global Global Heals Adult Guidelines Assistance for Adults with Down syndrome - Global Medical Care Guidelines For Adults with Down Syndrome offer evidence-based medical recommendations to support doctors in their adult care with down syndrome. 128, No. 2, 1 August 2011. Behavioral/emotional/mental health monitor. Thyroid thyroid guideline (April 20) available online. The guidelines are not a blueprint for golden star services. This is what we must do. For doctors: defines vulnerabilities health and vulnerabilities needed for the population of Down syndrome, selecting the right health professional: A Find a professional who will cooperate with you, and someone open to listening to their parents and seeing them as partners. One of the best ways to find a professional in your area is to ask families of other children with syndrome Down in the area. Online search online parent support groups or find your local Down Syndrome Organization for support. Use the healthcare guidelines accessible to you and bring the materials with you to your doctor!
